### Invisible Airplane Wings

Wings of cellulose acetate, being transparent, make an airplane invisible at the height of a few thousand feet, also increasing the operator's field of vision. Sheets one one-hundredth inch thick are about as strong as the ordinary wing cover, and the weight of nine ounces to the square yard is but slightly greater. The rapid spread of a tear when started is a disadvantage that may be overcome with a re-enforcing of loosely woven silk.

### Free Board.

A restaurant in Yuma, Ariz., displays a sign that reads: "Free board every day the sun doesn't shine." At first sight the offer of free board every day the sun doesn't shine might seem a reckless one, but, as a matter of fact, a day without sunshine in that desert country is far rarer than blackberries in May. If it rains at all, it is only for a very short time, leaving most of the day for sunshine, so that the sign would only catch a tenderfoot.

### Important Rivers.

Just as Egypt has been made by the Nile, so Mesopotamia has been made by the Tigris and the Euphrates. The view put forward with some authority that the rivers should be kept exclusively for irrigation and not be depended upon for transport is challenged on many grounds, one of which is that irrigation and navigation can be effectively combined, and indeed made mutually advantageous for many years to come.

### Lexicographer Wanted.

A new verb has come into existence. It is the verb "to automotive." The meaning is not quite clear, but we take it to mean to improve upon the automobile and its use.—New Haven Journal-Courier.

### Perfume From Orange Trees.

At Grasse, the center of the perfume industry in southern France, the acres of orange trees are not grown for the sake of the fruit, but for the glistering white blossoms that are used in making cologne-water.

Raymond Lake, a former Republican, and brother of Floyd Lake, former of the Body Assembly, has just returned from France.
